

Greetings;

As a veteran, family member of a veteran, or friend of a veteran you have been a part this country's defense in the past. This being the case I am sure you share our concerns for America and the desire to defend it against foreign and domestic enemies. We now have in our possession an incredibly powerful documentary by acclaimed Hollywood producer Aaron Russo. The film is called "America: Freedom to Fascism". It's a non-partisan film which every American should see which outlines what has been happening in the United States since 1913. There is also an interview with Aaron.

We would like to offer a "FREE" screening of this film to your group. Please give me a call to setup a time that we can show this film to your group.

CBS reviewer, Todd Schwartz called it "The scariest damn film you will see this year. It will leave you staggering out of the theater, slack-jawed and trembling....."

You've defended this country before and are once again being called to action. Let's work for a peaceful return to the republican form of government we are guaranteed in the state and federal constitutions.

Sincerely

Brian Caouette
