

Dear AFTF Volunteer:

Thanks for responding to "the call" to support Aaron's movie. The goal is very simple: raise public awareness about Aaron's movie from the ground-up in a grassroots movement that has the potential to revolutionize the way We The People view our government in ways that, we hope, will help restore the blessings of liberty and freedom in our country.

Aaron wants everyone to know that the first step was making the movie and getting it seen. The second step is getting people to volunteer and sign on in masses - and in the tradition of Dr. King and Gandhi - to create a movement of civil disobedience. The third step - and ultimate goal - is to force Congress to use their legal authority to shut down the private Federal Reserve Bank.
